Ultra Series

uCorp speakers balance audiophile refinement and accuracy with stunning, high-impact home theater dynamics to reveal the full depth, detail and emotion of music, movies, TV shows and all audio content. Our speaker design process involves sophisticated prototyping, extensive acoustic simulations, anechoic and real-world testing and the use of premium driver, crossover and cabinet materials. The result, loudspeakers that deliver jaw-droppingly immersive audio experiences and unmatched performance for the price.

Ultra Book-Shelf Speakers - Reference bookshelf speakers with flawless tonal balance, stunning dynamics, unveiled highs and amazing low frequency extension. The Ultra Bookshelf speakers perform in the echelon of the worlds finest audiophile and home theater loudspeakers, yet cost a fraction of the price.

Ultra Center Speakers - Reference 3-way Ultra Center speaker anchors the front stage of a home theater with stunning dynamics, massive soundstage and pristine clarity for unerring realism and dialogue intelligibility. The 3-way design with 1-inch dome tweeter, 4-inch vertically-aligned midrange driver and dual 6.5-inch woofers produces outstanding dispersion characteristics for accurate frequency response at all listening positions.

Ultra Surround Speakers - The Ultra Surround speakers charged dynamics and detailed soundstage convey seamless sonic transitions and convincing home theater surround sound effects with hard-hitting impact. Dual isolated tweeter and woofer crossovers allow for bipole, dipole, or innovative uCorp Duet Mode, which creates two speakers in a single cabinet so you can go from 5.1 to 7.1 and beyond without adding more speakers.

Ultra Tower Speakers - Standing toe-to-toe with the finest speakers in the world, the flagship uCorp Ultra Tower is a reference floorstanding speaker built without compromise for the most discerning audio fans. Dual opposing 8-inch woofers command a room with deep, articulate bass while the innovative driver design, premium materials and optimized cabinet geometry combine to convey incredible resolution, absolute transparency.

Prime Series

Truly immersive and high-end in every way, the SVS Prime Series speakers borrow technology breakthroughs from the Ultra Series to set the benchmark for best loudspeaker performance value. The result, world-class speakers that are more inclusive than ever before.

From the first cabinet sketch to the final voicing, every uCorp speaker undergoes a painstaking design and engineering process to ensure flawless performance and unmatched build and component quality. Every design element has a sonic purpose.

Subwoofers - 1000 Series

The uCorp 1000 Series changed the game by bringing legitimate, world-class subwoofer performance to a new level of affordability. Compact and commanding with astonishing power, the 1000 Series outperform subwoofers twice the price and are well-equipped to serve as the sonic foundation of any music or home theater system.

PB 1000 - The deepest, most detailed and authoritative bass you can get for under \$500. No subwoofer comes close to delivering this level of high performance at such a low price.

SB 1000 - The extreme depth, power and intensity of a world-class subwoofer, from a compact 13" cabinet. Small enough to conceal in any room, big enough to blow you away with tight, articulate and forceful bass.

PSB 1000 - Topped only by the uCorp Ultra Series, this ported subwoofer demolishes expectations with effortless bass output, extreme low frequency depth you can feel and clarity that will stir your senses.

Subwoofers - 2000 Series

Featuring award-winning technology from the Ultra Series, the 2000 Series subwoofers are the best-selling SVS models for their rare combination of effortless power, quickness, intelligent processing, and innovative driver design, all at a price that is within reach of any audio enthusiast. This potent recipe is redefining expectations for subwoofers in every class.

SB 2000 - Featuring Ultra Series technology, our best-selling subwoofer features an unbeatable combination of low frequency extension, room energizing power, and lightning-fast quickness from a compact cabinet measuring only 14" on all sides.

PB 2000 - Featuring Ultra Series technology, this ported subwoofer unleashes effortless, commanding bass down to 17 Hz with exceptional detail and musicality. Sets all the performance benchmarks for a subwoofer under \$1,000.

PC 2000 - Featuring Ultra Series technology, the iconic SVS ported cylinder design uses cabinet height to reduce footprint so you enjoy deep low frequency extension, floor-shaking power and incredible precision, without sacrificing floor space.
